IN SHORT

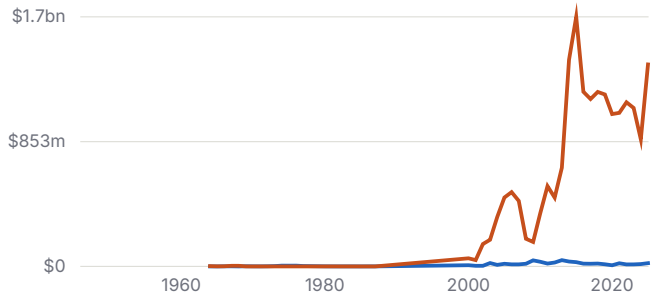

- UCDP records Iran supporting a side against the Taliban, then in power in Kabul (2001). That authority does not hold the UN seat of Afghanistan, and the UN is this site's reference. Who the relationship is with, and which rules apply, is therefore unclear, so the site computes no index for this pair.
- At the UN their vote agreement is 74% (2022–2024), lower than either of them has with most countries.
- Trade in goods ($1.1 billion a year) is very important for Afghanistan, much less so for Iran.
- In its UN General Debate speeches, Iran names Afghanistan more often than the reverse (165 sentences against 62).
- 3.8 million people born in Afghanistan live in Iran (UN DESA counts place of birth, however long ago they moved).

HOW SURE WE ARE

UN votes	**Medium**	109 shared votes on whole texts in 2022–2024, the years the headline share covers. With that many, a share is good to about ±9 points.
Trade	**High**	Goods trade is reported in 3 of the 3 years 2023–2025. Goods only, from customs data (IMF); services and energy pipelines are not in it.

Shared clubs	**High**	The list of tracked groups is fixed; membership is checked by hand.
Index	**None**	Not computable: relations between the two, and the rules that apply to them, are unclear, because the government that holds a UN seat and the authority that rules there are not the same.
