Australia & Yemen

Relationship index, −100 to +100. Votes and security run from −100 to +100; trade and shared clubs from 0 to 100.

IN SHORT

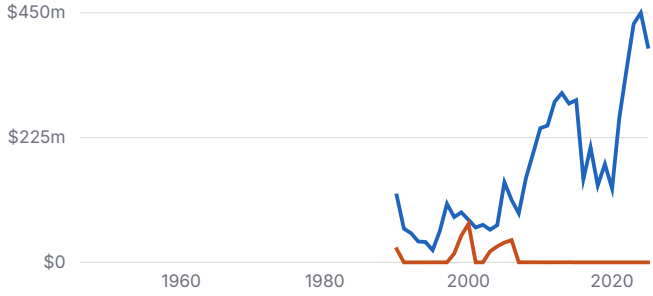

- UCDP records Australia supporting a side against the Ansarallah (Houthi) authorities in Sanaa (2024–2025). That authority does not hold the UN seat of Yemen, and the UN is this site's reference. Who the relationship is with, and which rules apply, is therefore unclear, so the site computes no index for this pair.
- At the UN their vote agreement is 62% (2022–2024), among the lowest either of them has with any country.
- Only part of their trade in goods is on record ($423 million a year): the IMF data have no exports from Yemen to Australia in these years, which may mean there were none or that they were not reported.
- 1,200 people born in Yemen live in Australia (UN DESA counts place of birth, however long ago they moved).

HOW SURE WE ARE

UN votes	**High**	270 shared votes on whole texts in 2022–2024, the years the headline share covers. With that many, a share is good to about ±6 points.
Trade	**High**	Goods trade is reported in 3 of the 3 years 2023–2025. Goods only, from customs data (IMF); services and energy pipelines are not in it.
Security	**None**	Not computable: relations between the two, and the rules that apply to them, are unclear, because the government that holds a UN seat and the authority that rules there are not the same.
Shared clubs	**High**	The list of tracked groups is fixed; membership is checked by hand.
Index	**None**	Not computable: relations between the two, and the rules that apply to them, are unclear, because the government that holds a UN seat and the authority that rules there are not the same.
