- Only part of their trade in goods is on record ($243 thousand a year): the IMF data have no exports from Libya to Bolivia in these years, which may mean there were none or that they were not reported.
- In its UN General Debate speeches, Bolivia names Libya far more often than the reverse (14 sentences against 0).
- 3 people born in Libya live in Bolivia (UN DESA counts place of birth, however long ago they moved).

## HOW SURE WE ARE

| | | |
|---|---|---|
| **UN votes** | **High** | 245 shared votes on whole texts in 2022–2024, the years the headline share covers. With that many, a share is good to about ±6 points. |
| **Trade** | **High** | Goods trade is reported in 3 of the 3 years 2023–2025. Goods only, from customs data (IMF); services and energy pipelines are not in it. |
| **Security** | **High** | The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year. |
| **Shared clubs** | **High** | The list of tracked groups is fixed; membership is checked by hand. |
| **Index** | **High** | As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer. |
