- Only part of their trade in goods is on record ($57 thousand a year): the IMF data have no exports from the Central African Republic to Mali in these years, which may mean there were none or that they were not reported.
- In its UN General Debate speeches, the Central African Republic names Mali more often than the reverse (8 sentences against 3).
- 1,500 people born in the Central African Republic live in Mali (UN DESA counts place of birth, however long ago they moved). A separate count, by UNHCR: 1,500 refugees and asylum seekers from the Central African Republic in Mali; the two counts measure different things and are not added up.

Security	**High**	The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year.
Shared clubs	**High**	The list of tracked groups is fixed; membership is checked by hand.
Index	**High**	As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer.
