IN SHORT

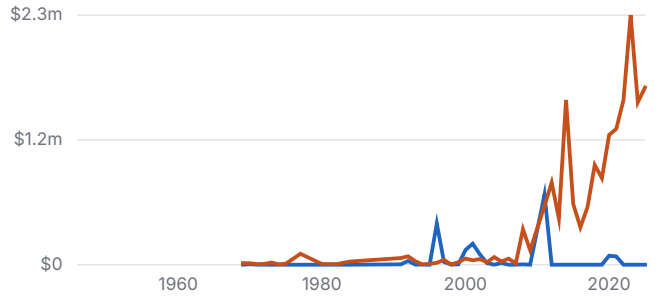

- At the UN their vote agreement is 90% (2022–2024), higher than either of them has with most countries.
- Only part of their trade in goods is on record ($1.8 million a year): the IMF data have no exports from the Central African Republic to Togo in these years, which may mean there were none or that they were not reported.
- 380 people born in the Central African Republic live in Togo (UN DESA counts place of birth, however long ago they moved). A separate count, by UNHCR: 216 refugees and asylum seekers from the Central African Republic in Togo; the two counts measure different things and are not added up.

Security	**High**	The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year.
Shared clubs	**High**	The list of tracked groups is fixed; membership is checked by hand.
Index	**High**	As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer.
