## IN SHORT

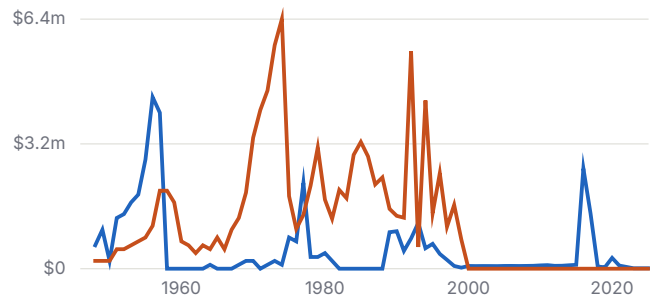

- At the UN their vote agreement is 67% (2022–2024), lower than either of them has with most countries.
- Only part of their trade in goods is on record ($11 thousand a year): the IMF data have no exports from Denmark to the DR Congo in these years, which may mean there were none or that they were not reported.
- 2,000 people born in the DR Congo live in Denmark (UN DESA counts place of birth, however long ago they moved). A separate count, by UNHCR: 1,600 refugees and asylum seekers from the DR Congo in Denmark; the two counts measure different things and are not added up.

| **Security** | **High** | The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year. |
| **Shared clubs** | **High** | The list of tracked groups is fixed; membership is checked by hand. |
| **Index** | **High** | As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer. |
