## HOW SURE WE ARE

| | | |
|---|---|---|
| **UN votes** | **Medium** | 128 shared votes on whole texts in 2022–2024, the years the headline share covers. With that many, a share is good to about ±9 points. |
| **Trade** | **Low** | No goods trade is reported for 2023–2025, so the score is 0. The data cannot tell zero trade from trade that was not reported. |
| **Security** | **High** | The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year. |
| **Shared clubs** | **High** | The list of tracked groups is fixed; membership is checked by hand. |
| **Index** | **Low** | As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer. |
