## IN SHORT

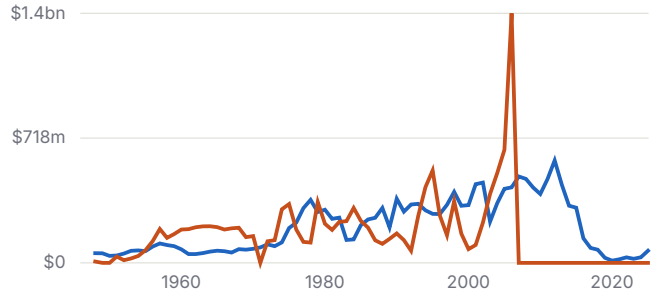

- Only part of their trade in goods is on record ($42 million a year): the IMF data have no exports from Venezuela to the United Kingdom in these years, which may mean there were none or that they were not reported.
- In its UN General Debate speeches, Venezuela names the United Kingdom far more often than the reverse (68 sentences against 2).
- 1,600 people born in the United Kingdom live in Venezuela (UN DESA counts place of birth, however long ago they moved).

## HOW SURE WE ARE

| | | |
|---|---|---|
| **UN votes** | **None** | No shared UN votes are on record for the years the headline covers. One of the two did not vote in them: an observer state, a country not yet a member, or a member that could not vote. |
| **Trade** | **High** | Goods trade is reported in 3 of the 3 years 2023–2025. Goods only, from customs data (IMF); services and energy pipelines are not in it. |
| **Security** | **High** | The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year. |
| **Shared clubs** | **High** | The list of tracked groups is fixed; membership is checked by hand. |
| **Index** | **None** | No index is shown: it needs both a votes score and a trade score. |
