Relationship index, −100 to +100. Votes and security run from −100 to +100; trade and shared clubs from 0 to 100.

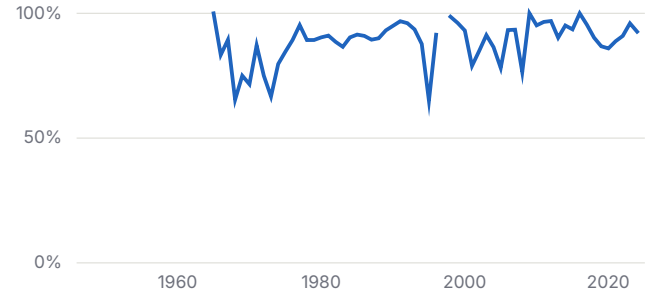

## IN SHORT

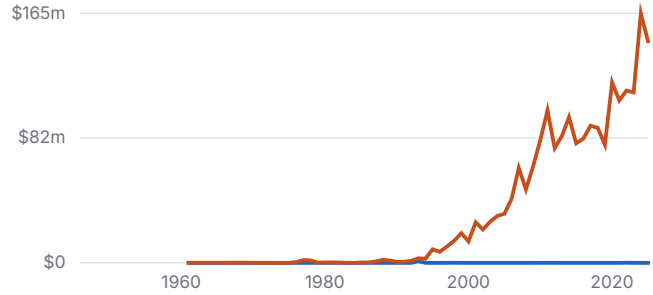

- At the UN their vote agreement is 93% (2022–2024), higher than either of them has with most countries.
- Only part of their trade in goods is on record ($141 million a year): the IMF data have no exports from the Gambia to Brazil in these years, which may mean there were none or that they were not reported.
- 78 people born in the Gambia live in Brazil (UN DESA counts place of birth, however long ago they moved). A separate count, by UNHCR: 61 refugees and asylum seekers from the Gambia in Brazil; the two counts measure different things and are not added up.

## OVER TIME

**Share of recorded UN votes cast the same way**

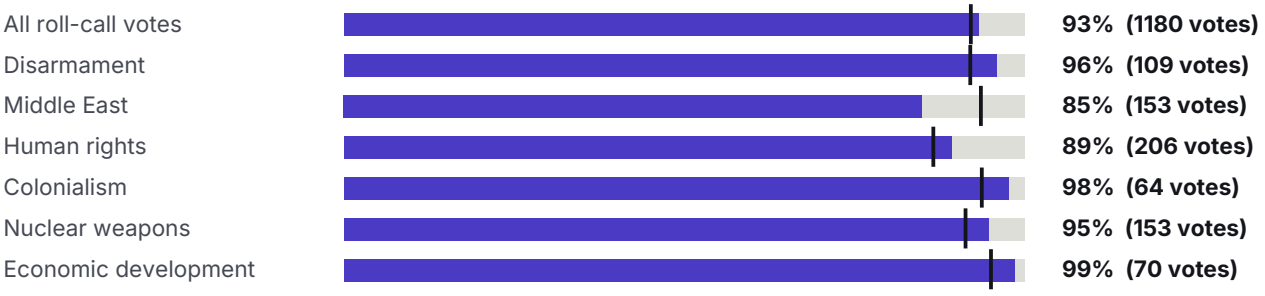

**Goods exports each way (US dollars)**

Gambia sells to Brazil  Brazil sells to Gambia

## VOTES TOPIC BY TOPIC (SINCE 2010)

Bar: since 2010. Mark: all years. Share of roll-call votes on whole texts cast the same way, counted vote by vote; an abstention against a yes counts as a difference. Disarmament, colonialism and economic development count votes up to 2018.

## THE FACTS

| | |
|---|---|
| **UN votes** | At the UN, the vote agreement of the Gambia and Brazil was 93% in 2022–2024. For the Gambia, Brazil is the 95th closest voting partner out of 191; for Brazil, the Gambia is the 8th closest partner. |
| **Trade** | Trade in goods between them averaged $141 million a year in 2023–2025: 4.9% of all the Gambia's trade and less than 0.1% of Brazil's. Brazil is the Gambia's 5th largest trading partner. |
| **Words** | Since 1946, the Gambia has named Brazil in 2 sentences of its General Debate speeches; Brazil has named the Gambia in 1. |
| **Security** | No armed conflict between the two governments is recorded since 1946 (UCDP, data to 2025). |
| **People** | 78 people born in the Gambia live in Brazil (2024, UN DESA). |

## HOW SURE WE ARE

| | | |
|---|---|---|
| **UN votes** | **High** | 241 shared votes on whole texts in 2022–2024, the years the headline share covers. With that many, a share is good to about ±6 points. |
| **Trade** | **High** | Goods trade is reported in 3 of the 3 years 2023–2025. Goods only, from customs data (IMF); services and energy pipelines are not in it. |
| **Security** | **High** | The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year. |
| **Shared clubs** | **High** | The list of tracked groups is fixed; membership is checked by hand. |
| **Index** | **High** | As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer. |
