## IN SHORT

- At the UN their vote agreement is 39% (2022–2024), among the lowest either of them has with any country.
- Trade in goods ($232 million a year) is a very small part of either country's trade, under 0.5%.
- In its UN General Debate speeches, Nigeria names Israel far more often than the reverse (62 sentences against 6).
- 765 people born in Nigeria live in Israel (UN DESA counts place of birth, however long ago they moved). A separate count, by UNHCR: 574 refugees and asylum seekers from Nigeria in Israel; the two counts measure different things and are not added up.

Bar: since 2010. Mark: all years. Share of roll-call votes on whole texts cast the same way, counted vote by vote; an abstention against a yes counts as a difference. Disarmament, colonialism and economic development count votes up to 2018.

## HOW SURE WE ARE

| | | |
|---|---|---|
| **UN votes** | **High** | 235 shared votes on whole texts in 2022–2024, the years the headline share covers. With that many, a share is good to about ±6 points. |
| **Trade** | **High** | Goods trade is reported in 3 of the 3 years 2023–2025. Goods only, from customs data (IMF); services and energy pipelines are not in it. |
| **Security** | **High** | The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year. |
| **Shared clubs** | **High** | The list of tracked groups is fixed; membership is checked by hand. |
| **Index** | **High** | As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer. |
