Israel & Yemen

n/a

Not computable

Relationship index, −100 to +100. Votes and security run from −100 to +100; trade and shared clubs from 0 to 100.

IN SHORT

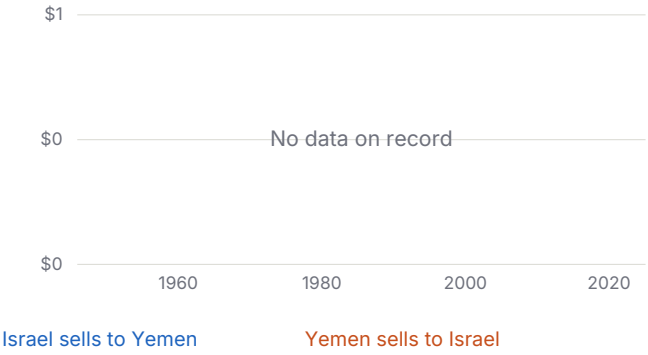

- UCDP records Israel fighting the Ansarallah (Houthi) authorities in Sanaa (2023–2025). That authority does not hold the UN seat of Yemen, and the UN is this site's reference. Who the relationship is with, and which rules apply, is therefore unclear, so the site computes no index for this pair.
- At the UN their vote agreement is 38% (2022–2024), among the lowest either of them has with any country.
- They have no recorded trade in goods.
- In its UN General Debate speeches, Yemen names Israel far more often than the reverse (401 sentences against 23).
- 35,000 people born in Yemen live in Israel (UN DESA counts place of birth, however long ago they moved).

OVER TIME

Share of recorded UN votes cast the same way

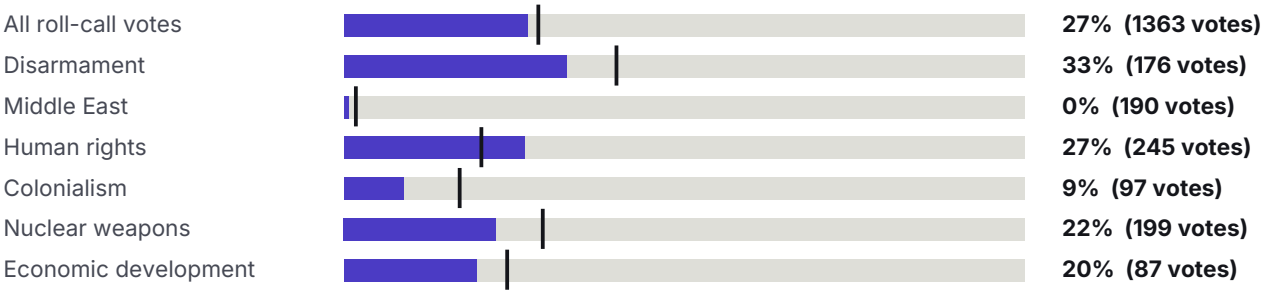

Goods exports each way (US dollars)

VOTES TOPIC BY TOPIC (SINCE 2010)

Most alike on disarmament (33% of votes the same), furthest apart on Middle East (0%), against 27% on all votes since 2010.

Bar: since 2010. Mark: all years. Share of roll-call votes on whole texts cast the same way, counted vote by vote; an abstention against a yes counts as a difference. Disarmament, colonialism and economic development count votes up to 2018.

THE FACTS

UN votes	At the UN, the vote agreement of Israel and Yemen was 38% in 2022–2024. For Israel, Yemen is the 49th most distant voting partner out of 191; for Yemen, Israel is the most distant partner.
Trade	No trade in goods between them is recorded for 2023–2025.
Words	Since 1946, Israel has named Yemen in 23 sentences of its General Debate speeches; Yemen has named Israel in 401.
People	35,000 born in Yemen live in Israel (2024, UN DESA).
Security	UCDP records Israel fighting the Ansarallah (Houthi) authorities in Sanaa (2023–2025). That authority does not hold the UN seat of Yemen, and the UN is this site's reference. Who the relationship is with, and which rules apply, is therefore unclear, so the site computes no index for this pair.

HOW SURE WE ARE

UN votes	**High**	265 shared votes on whole texts in 2022–2024, the years the headline share covers. With that many, a share is good to about ±6 points.
Trade	**Low**	No goods trade is reported for 2023–2025, so the score is 0. The data cannot tell zero trade from trade that was not reported.
Security	**None**	Not computable: relations between the two, and the rules that apply to them, are unclear, because the government that holds a UN seat and the authority that rules there are not the same.
Shared clubs	**High**	The list of tracked groups is fixed; membership is checked by hand.
Index	**None**	Not computable: relations between the two, and the rules that apply to them, are unclear, because the government that holds a UN seat and the authority that rules there are not the same.
