## IN SHORT

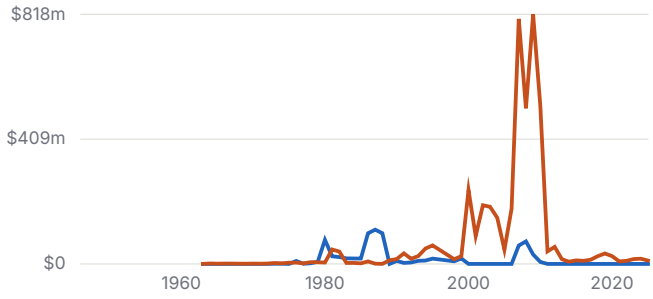

- At the UN their vote agreement is 76% (2022–2024), about average for both of them.
- Only part of their trade in goods is on record ($15 million a year): the IMF data have no exports from Libya to Syria in these years, which may mean there were none or that they were not reported.
- In its UN General Debate speeches, Libya names Syria more often than the reverse (38 sentences against 20).
- 47,000 people born in Syria live in Libya (UN DESA counts place of birth, however long ago they moved).

## OVER TIME

Libya sells to Syria  Syria sells to Libya

## VOTES TOPIC BY TOPIC (SINCE 2010)

Bar: since 2010. Mark: all years. Share of roll-call votes on whole texts cast the same way, counted vote by vote; an abstention against a yes counts as a difference. Disarmament, colonialism and economic development count votes up to 2018.

## HOW SURE WE ARE

| | | |
|---|---|---|

| **Trade** | **High** | Goods trade is reported in 3 of the 3 years 2023–2025. Goods only, from customs data (IMF); services and energy pipelines are not in it. |
| **Security** | **High** | The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year. |
| **Shared clubs** | **High** | The list of tracked groups is fixed; membership is checked by hand. |
| **Index** | **High** | As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer. |
