## IN SHORT

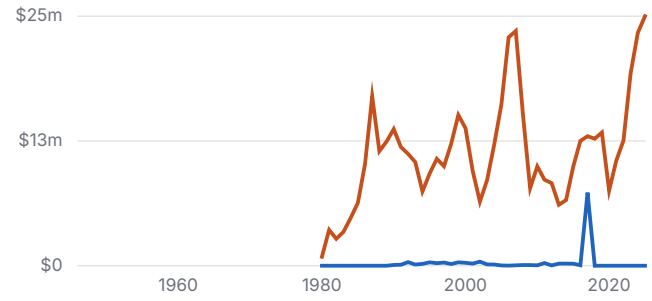

- At the UN their vote agreement is 74% (2022–2024), lower than either of them has with most countries.
- Only part of their trade in goods is on record ($23 million a year): the IMF data have no exports from Saint Lucia to Japan in these years, which may mean there were none or that they were not reported.
- In its UN General Debate speeches, Saint Lucia names Japan more often than the reverse (6 sentences against 3).
- 8 people born in Japan live in Saint Lucia (UN DESA counts place of birth, however long ago they moved).

| **Shared clubs** | **High** | The list of tracked groups is fixed; membership is checked by hand. |
| **Index** | **High** | As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer. |
