HOW SURE WE ARE

UN votes	**High**	150 shared votes on whole texts in 2022–2024, the years the headline share covers. With that many, a share is good to about ±8 points.
Trade	**Low**	No goods trade is reported for 2023–2025, so the score is 0. The data cannot tell zero trade from trade that was not reported.
Security	**High**	The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year.
Shared clubs	**High**	The list of tracked groups is fixed; membership is checked by hand.
Index	**Low**	As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer.
