## IN SHORT

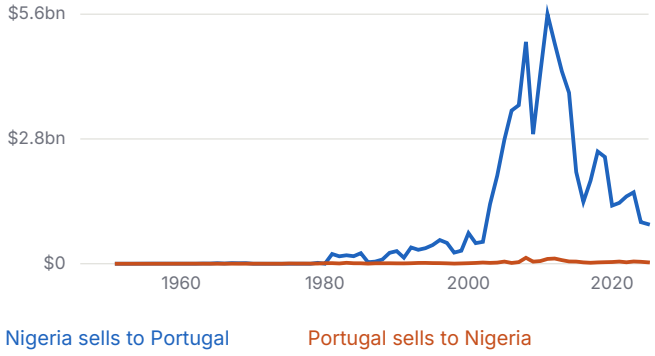

- At the UN their vote agreement is 61% (2022–2024), among the lowest either of them has with any country.
- Trade in goods ($1.2 billion a year) is modest for Nigeria, less so for Portugal.
- In its UN General Debate speeches, Nigeria names Portugal far more often than the reverse (65 sentences against 3).
- 340 people born in Nigeria live in Portugal (UN DESA counts place of birth, however long ago they moved). A separate count, by UNHCR: 2,400 refugees and asylum seekers from Nigeria in Portugal; the two counts measure different things and are not added up.

## HOW SURE WE ARE

| | | |

| **Trade** | **High** | Goods trade is reported in 3 of the 3 years 2023–2025. Goods only, from customs data (IMF); services and energy pipelines are not in it. |
| **Security** | **High** | The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year. |
| **Shared clubs** | **High** | The list of tracked groups is fixed; membership is checked by hand. |
| **Index** | **High** | As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer. |
