IN SHORT

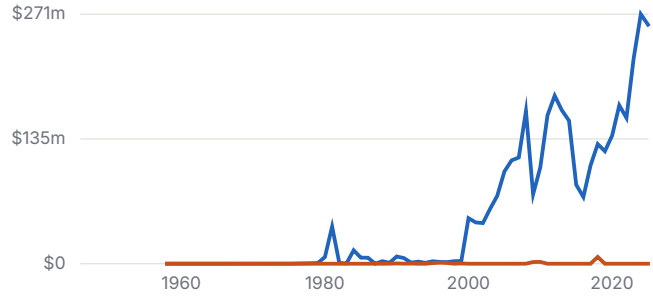

- At the UN their vote agreement is 90% (2022–2024), higher than either of them has with most countries.
- Only part of their trade in goods is on record ($251 million a year): the IMF data have no exports from Libya to Saudi Arabia in these years, which may mean there were none or that they were not reported.
- In its UN General Debate speeches, Saudi Arabia names Libya far more often than the reverse (14 sentences against 0).
- 40,000 people born in Saudi Arabia live in Libya (UN DESA counts place of birth, however long ago they moved).

People	Their national football teams have met twice.

HOW SURE WE ARE

UN votes	**High**	259 shared votes on whole texts in 2022–2024, the years the headline share covers. With that many, a share is good to about ±6 points.
Trade	**High**	Goods trade is reported in 3 of the 3 years 2023–2025. Goods only, from customs data (IMF); services and energy pipelines are not in it.
Security	**High**	The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year.
Shared clubs	**High**	The list of tracked groups is fixed; membership is checked by hand.
Index	**High**	As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer.
