- Only part of their trade in goods is on record ($729 thousand a year): the IMF data have no exports from Syria to Costa Rica in these years, which may mean there were none or that they were not reported.
- In its UN General Debate speeches, Costa Rica names Syria far more often than the reverse (15 sentences against 0).
- 16 people born in Syria live in Costa Rica (UN DESA counts place of birth, however long ago they moved). A separate count, by UNHCR: 38 refugees and asylum seekers from Syria in Costa Rica; the two counts measure different things and are not added up.

Trade	**High**	Goods trade is reported in 3 of the 3 years 2023–2025. Goods only, from customs data (IMF); services and energy pipelines are not in it.
Security	**High**	The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year.
Shared clubs	**High**	The list of tracked groups is fixed; membership is checked by hand.
Index	**High**	As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer.
