IN SHORT

- Armed conflict: UCDP records them on opposite sides of the conflict in Tajikistan, with Uzbekistan supporting another party, in 1992.
- At the UN their vote agreement is 97% (2022–2024), among the highest either of them has with any country.
- Trade in goods ($1.6 billion a year) is very important for Tajikistan, much less so for Uzbekistan.
- In its UN General Debate speeches, Uzbekistan names Tajikistan more often than the reverse (24 sentences against 9).
- 11,000 people born in Tajikistan live in Uzbekistan (UN DESA counts place of birth, however long ago they moved). A separate count, by UNHCR: 39,000 refugees and asylum seekers from Tajikistan in Uzbekistan; the two counts measure different things and are not added up.

HOW SURE WE ARE

UN votes	**High**	232 shared votes on whole texts in 2022–2024, the years the headline share covers. With that many, a share is good to about ±6 points.
Trade	**High**	Goods trade is reported in 3 of the 3 years 2023–2025. Goods only, from customs data (IMF); services and energy pipelines are not in it.
Security	**High**	The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year.
Shared clubs	**High**	The list of tracked groups is fixed; membership is checked by hand.
Index	**High**	As sure as the weaker of its two required parts, votes and trade. Security and shared clubs add to it but never make it surer.
