IN SHORT

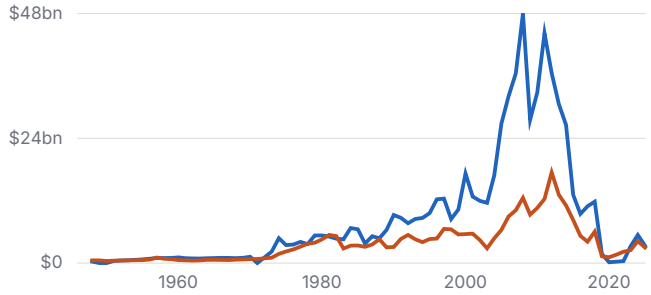

- Trade in goods ($7.3 billion a year) is very important for Venezuela, much less so for the United States.
- In its UN General Debate speeches, Venezuela names the United States far more often than the reverse (450 sentences against 27).
- 764,000 people born in Venezuela live in the United States (UN DESA counts place of birth, however long ago they moved). A separate count, by UNHCR: 435,000 refugees and asylum seekers from Venezuela in the United States; the two counts measure different things and are not added up.

HOW SURE WE ARE

UN votes	**None**	No shared UN votes are on record for the years the headline covers. One of the two did not vote in them: an observer state, a country not yet a member, or a member that could not vote.
Trade	**High**	Goods trade is reported in 3 of the 3 years 2023–2025. Goods only, from customs data (IMF); services and energy pipelines are not in it.
Security	**High**	The Uppsala Conflict Data Program covers every state up to 2025. It counts only conflicts with at least 25 battle deaths a year.
Shared clubs	**High**	The list of tracked groups is fixed; membership is checked by hand.
Index	**None**	No index is shown: it needs both a votes score and a trade score.
